

Michael Bellotti

Game Programmer

Cremona, Italy (open to relocate) | michael.bellotti@protonmail.com | [LinkedIn](#) | [Portfolio](#)

WORK EXPERIENCE

Independent Developer and Volunteer

2026

Toronto, Canada

- Strengthened professional English skills through daily study and practical communication
- Customized the structure, content, and visual style of a portfolio website template to showcase my game-development projects on the domain bellottimichael.com
- Currently contributing to an ongoing Metroidvania game developed collaboratively by a small team
- Participated in Workaway volunteer placements while living in Canada and improving my English-language proficiency

Software Developer

2024 - 2025

Fondazione PIN, Prato, Italy

- Designed and implemented virtual-tour projects and VR simulations from scratch using Unity, C# and the Meta XR SDK
- Developed multiplayer experiences on the spatial.io platform based on client needs using the Spatial Creator Toolkit (Unity SDK)
- Captured 360-degree images and video during international work trips for EU projects
- Wrote technical documentation to facilitate code maintenance and reuse

Game Programmer

2024

Etrurian Games, Remote

- Shipped the free-to-play game "Letters From The War" on Steam
- Implemented UI and audio systems
- Developed gameplay logic and final polish in Unity and C#, using GitHub for version control

Game Programmer

2023 - 2024

Lemons in The Room, Florence, Italy

- Developed VR training prototypes for medical education using Unity, C#, the Meta XR SDK and GitHub for version control
- Designed and implemented UI in a 3D environment
- Implemented a small quest and dialogue system based on events to manage player tasks

Software Developer

2022

NEKTE Srl, Milan, Italy

- Customized the company's product "Quantum 365" in C# and ASP.NET based on client needs
- Customized Microsoft Dynamics 365 applications based on client needs
- Analyzed client needs and proposed tailored software solutions
